

Prioritize Foundational Math Skills Development for K–5 Learners

COMPLIMENTARY WEBINAR

Tuesday, February 1

11:00 am – 12:00 pm ET / 10:00 am – 11:00am CT

Learn best practices for measuring and monitoring students' math skills proficiency, as well as accelerating skills development and growth.

- Identify key foundational and grade-level skills students are ready to learn
- Focus instruction and practice on developing the most critical skills
- Target math practice at the right level for each student
- Use real-world scenarios to deepen students' understanding of key skills
- Support instruction and guide growth with Star Math and Freckle
